>> one day sustainability course

## > LEVEL 2

# Implement and monitor environmentally sustainable work practices

Learn to effectively analyse the workplace in relation to environmentally sustainable work practices and to implement improvements and monitor their effectiveness.

This unit is based on the sustainability guideline standard GCSSUS02A *Implement and monitor environmentally sustainable work practices*.

At the end of this course you will be able to:

- set targets for improvements.
- investigate current practices in relation to resource usage.
- implement performance improvement strategies.
- monitor performance
- implement and monitor integrated environmental and resource efficiency management policies and procedures within an organisation.

This knowledge and competence will assist you to help the enterprise to:

- prevent and minimise environmental risks and maximise opportunities
- reduce emissions of greenhouse gases
- reduce use of non-renewable resources
- make more efficient use of energy, water and other resources
- maximise opportunities to re-use and recycle materials
- identify strategies to offset or mitigate environmental impacts, e.g. purchasing of carbon credits
- express purchasing power through the selection of suppliers with improved environmental performance, e.g. purchasing renewable energy and materials with lower embedded carbon
- eliminate the use of hazardous and toxic materials increasing the reusability/recyclability of wastes/products.

## Who should come?

This competency applies to those who have responsibility for a specific area of work or who lead a work group or team. It addresses the knowledge, processes and techniques necessary to implement and monitor environmentally sustainable work practices, including the development of processes and tools as it includes:

- Identifying areas for improvement
- Developing plans to make improvements
- Implementing and monitoring improvements in environmental performance.

At the completion of training competency will be recognised with a statement of attainment provided by the registered training organisation for MSAENV272B
